Lloyd Michener welcomed everyone and discussed the agenda for today’s webinar.

Jose Montero presented on public health and health (disease) care integration through SIM.

**Main points:**
- Determinants of health
- Successes and challenges of public health and primary care integration
- CMS SIM grants’ primary aims and results

**Discussion**
How do we get to where we need to be from a financial standpoint? We did not get into the situation in one day, and we won’t get out of it in one day. Communities need to engage in a different way of thinking. We need to share what we have in the realm of public health.

Let individuals know how you plan to affect change with the data results. Don’t just collect useless information.

Training learners for MPHs, does not mean they are going to work in state government. Public health is a field that has many branches.
